ANNUAL REPORT OF THE COLLEGE FOR THE YEAR 2022-23

During the academic session 2022-23, the college received a shot in the arm with the appointment and posting of 9 new Asst. Professors and a Librarian to the college which came as a great relief as almost all the departments had been short of teachers, but having said that, some senior teachers were transferred to other colleges during the session.

As a regular feature, different committees were constituted among the teachers (with the inclusion of students and also non-teaching staff in several committees) and these committees took the initiative to successfully conduct various co-curricular and extra-curricular activities including observance of national and international days. The students also had a pro-active and co-operative spirit in all aspects of campus life.

The introduction of CBCS also brought about a new perspective to the whole learning experience in the college. One challenge that is yet to be addressed is the shortage of classrooms. A basic requirement (for which proposal has been put up to the department) that is yet to be met by the government is the introduction of Sociology in the college. The introduction of Science and Commerce Streams in the college is to be seriously pursued for actualisation.

The college has been tirelessly striving towards creating an atmosphere that is conducive to providing quality education to the learners.

(DR. K. Kalito Chishi)
